Subject: Pebble new RFIs & updated 404 application
[Pebble post DEIS RFI list 2020 july24.docx](#)

Hello All –

Yesterday new RFI responses were posted to the Corps' Pebble EIS website. These are identified (highlighted) in the attached table. A few of these may include information or be references pertinent to our Final EIS review such as concentrate pipeline water management (066b), project optimizations (143a and 168), Alternative 3 wetlands mapping (116c), and responses to additional mitigation that was submitted during the 404 discussions (071d). I am not sure whether you need to review these RFIs since the information should be incorporated into the final EIS. However, they may be helpful for basis.

These RFI responses can be downloaded from the Project Library on the Corps website. Let me know if you need help with this.
<https://pebbleprojecteis.com/documents/library>

Also, an updated 404 permit application (dated 6-8-2020) was added to the website yesterday. The Corps is not planning to public notice the updated application.

In follow-up to my earlier Final EIS review message, all of the Final EIS appendices have been uploaded to our SharePoint site so the Final EIS folder is complete.

Patty
